CAREER SUMMARY

A passionate Software Engineer with hands-on experience in building responsive, high-performing applications and web platforms. Skilled in Python, JavaScript, Node.js, Express, PostgreSQL, React, Firebase, and WordPress. Combines creative problem-solving with strong technical foundations to build impactful user experiences and efficient backend systems. Driven by a love for innovation, learning, and continuous improvement.

EXPERIENCE

Freelance Software Developer — Self-employed (2023–Present)
• Built and deployed multiple full-stack web and mobile apps for clients in tech, fashion, and lifestyle industries.
• Specialized in modern front-end design and backend integration using JavaScript, Node.js, Express, PostgreSQL, and Firebase.
• Designed and optimized websites for user experience, speed, and scalability.

Product Tester — Vyo LLC (2025)
• Tested and reviewed new features for Vyo, a social media platform under development by Vyo LLC.
• Provided product feedback, reported bugs, and helped refine user experience.
• Worked closely with the QA and dev teams to improve feature performance and functionality.

PROJECTS

What's Up? — A journaling and mood-tracking app built with Nigerian slang and local context.

Stack'd — A productivity and wellness app that helps users build new habits and overcome addictions by maintaining streaks.

TrendyThreads — A minimalist e-commerce fashion website inspired by Nike's aesthetic.

Luxe Beauty Cosmetics — A cosmetics store prototype featuring responsive design and admin dashboard.

The Tall Writer Blog — A client's personal blog with a simple CMS for easy post updates.

SKILLS & EXPERTISE

Python, JavaScript, HTML, CSS, Node.js, Express.js, React, PostgreSQL, Firebase, Supabase, WordPress, Google APIs, Git, RESTful APIs

EDUCATION

ESPAM University, Benin Republic — BSc in Software Engineering (In progress)
